RE: Disturbance Restrictions, RBT Site  
Washington Department of Ecology No. DE83-284  
Survey Plat 11-84-170401-7182H, Lawson Land Surveying  
Clark County Auditors File No. 8312300054

Gentlemen:

Enclosed plat describes real property in which hazardous wastes have been disposed and buried in accordance with requirements of EPA 40 CFR 265. Although the hazardous waste disposal facility is now closed, public health, environmental safety, and regulations issued by the United States Environmental Protection Agency at 40 CFR 265.117(c) require that post-closure use of the property never be allowed to disturb the integrity of the final cover, liner(s) or any attached containment system unless it can be demonstrated that any proposed disturbance will not increase any risk to the public or the environment.

Your attention is directed to the accompanying list of wastes, described by type and location, buried at the above described facility.

Yours Sincerely,

Vincent F. McQuiggin  
Project Coordinator
